

Recommended Bibles to use with your children.

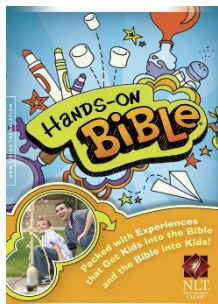

It's great for children to start reading the Bible at a young age; there are loads of fabulous Bibles out there. Here are a few that we recommend:

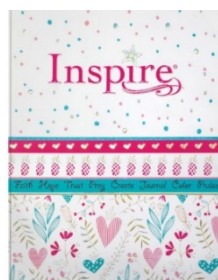

For children under 7 we would recommend **The Beginner's Bible** it contains key stories from the bible, and is colourful and simple to follow.

If your child loves comic books, this is a really lively bible that goes through bible stories in a comic book style.

This bible has loads of fun facts and activities inside. A great bible, probably aimed at age 8 +.

This is a brilliant colouring bible that also has prayers and short devotionals throughout.
