

Holding On

Tom Endersby

F C G Am

[Verse 1]

Every stage and every season
In the joy and in the grieving
You are all I need
When the chaos hides the meaning
And I'm chasing after reasons
You hold every piece

[Pre-chorus]

You give me your Holy Fire within me
I'm living in light, filled by your Spirit

[Chorus]

Whatever may come
You're always enough
You are God alone
Through every storm
I'm caught in your love
You are God alone
Whatever comes you are holding on

[V2]

When fear is flooding over
Then I'll walk upon the water
Because with you I know I can
And even if I'm falling
I know you're always holding
I'm still in your hands

[Bridge]

You give me your Holy Fire within me
I'm living in light, filled by your Spirit
Through every hurt and trial you're with me
So lead me on, lead me on
